Textile Science and Engineering publishes original research on all aspects of textile science and engineering, which have not been or are not to be published elsewhere.

Authorship and Ethical Issues

For the policies on the research and publication ethics not stated in this instructions, International standards for editors and authors (<http://publicationethics.org/resources/international-standards-for-editors-and-authors>) will be applied.

Manuscripts for publication may be submitted via the TSE on-line submission system (www.fiber.or.kr/publish/TSE).
