

ITMC2024 Conference & Sustainable Smart Fiber Exhibition

Stay Ahead of the Industry

Dates: November 20-23, 2024

Location: Shinshu University Ueda Campus,
Ueda, Nagano, Japan

Hosted by

**Faculty of Textile Science and Technology,
Institute for Fiber Engineering and Science,
Shinshu University, Japan**

Institutional Partners

ESITH, Morocco

CTT Group, Canada

ENSAIT, France

Ghent University, Belgium

ITMC2024: International Conference on Intelligent Textiles and Mass Customization 2024

The ITMC2024 conference is poised to delve into the profound theme of "Intelligent Textiles and Mass Customization," serving as an esteemed platform for erudite discourse, exhibitions, and networking opportunities. Distinguished experts hailing from the realms of textiles, allied industries, and academia will grace the occasion with their insightful lectures. This symposium aims to facilitate an exchange of knowledge and ideas within an ambiance tailored for the advancement of the textile industry. Within the confines of the specially curated Sustainable Smart Textile Salon, deliberations will span the contours of sustainable circular textile strategies and the burgeoning field of intelligent textiles. Participants are encouraged to engage in substantive discussions and share valuable insights, thus fostering an environment conducive to the dissemination of pertinent information. The conference, meticulously scheduled for the duration of four days, commencing on November 20 and concluding on November 23, stands as a beacon of respite and renewal—a symbolic departure from the challenges posed by the corona pandemic. This event marks a significant milestone as the first face-to-face congregation post the aforementioned global crisis. We extend a cordial invitation to individuals across diverse industries to partake in this prestigious event. Your presence, esteemed contributions, and active participation in presentations and exhibitions are eagerly anticipated. We appreciate your kind consideration and look forward to the honor of your attendance.

Important Dates

Deadline for abstract submission: July 31, 2024

Notification of acceptance: August 7, 2024

Early bird registration deadline: August 7, 2024

Release date of the session program: August 16, 2024

Conference dates: Nov. 20-23, 2024

Registration Fee

Early bird fee (before Aug. 7): Regular JPY 30,000, Student JPY 15,000

Regular fee: Regular JPY 40,000, Student JPY 20,000

Summary of ITMC2024

International Conference on Intelligent Textiles and Mass Customization ITMC 2024

Date : November 20~23, 2024 (November 23 is excursion)

Venue : Faculty of Textile Science and Technology, Shinshu University, Japan
(3-15-1 Tokida, Ueda, Nagano, Japan)

ITMC2024 official website : <https://www.itmc2024.com/>

Chairs of Organizing Committee :

Dean of Faculty of Textile Science and Technology Prof. Yasushi MURAKAMI

Director of Institute for Fiber Engineering and Science Prof. Ick Soo KIM

Former Dean of Faculty of Textile Science and Technology Prof. Hideaki MORIKAWA

Joint Hosting Partner

- ESITH (Ecole Supérieure des Industries du Textile et de l'Habillement), Morocco
- CTT Group (Collegial Centre for Technology Transfer at the Cégep de Saint-Hyacinthe), Canada
- ENSAIT (Ecole Nationale Supérieure des Arts et Industries Textiles), France
- Ghent University, Belgium

Purpose of the Conference

This conference started in Belgium (Ghent University) in 2018 and rotates among five coordinating countries: Canada (CTT Group), France (ENSAIT), Japan (Shinshu University), and Morocco (ESITH). The 5th ITMC conference in 2024 will be the first to be held in Japan.

This international conference maintains an interdisciplinary base and connects with the textile and textile-related industries of each country, focusing on future topics in the textile field. It aims to maximize the potential of various textile materials and related technologies, contributing to the growth of new industrial fields towards practical applications. By fostering constructive exchanges among designers, manufacturers, suppliers, and end-users from various fields, the conference seeks to generate synergies, promote innovation, form new collaborations for economic growth, and propose more efficient solutions to future challenges. The previous conference was held in Montreal, Canada, in 2022, hosted by the CTT Group.

ITMC2022 official website: <https://www.itmc2022.com/>

Following ITMC2024, the International Symposium on Fiber Science and Technology (ISF2024), commemorating the 80th anniversary of the Society of Fiber Science and Technology will be held in Kyoto starting on November 25. ITMC2024 and ISF2024 are coordinated such that many international participants will attend ITMC2024 in Ueda first and then move to Kyoto for ISF2024.

ISF2024 official website: <https://www.primatours.co.jp/isf2024/>

We sincerely hope that many of you will be able to participate. Thank you very much for your support.
